## YA BASTA CON LOS MINUTE KLAN

Our people are fighting back reclaiming our resources, our dignity, our right to self-determine and our lives so that we can live in peace.

It is no different here in Aztlan. We, the indigenous peoples of these continents are also engaged in this historical struggle for our ultimate freedom as a people whose lands were stolen from us and so we must remind those that are in occupied stolen

land right here in Aztlan. It is up to our gente to remind the world who we are and to mobilize our gente to take up the struggle for our own self determination and lead our own struggle
