

“As you know, the establishment of social justice in our nation is of profound concern to me. This great struggle is in the interest of all Americans and I shall not be turned from it. Yet no sane person can afford to work for social justice within the nation unless he simultaneously resists war and clearly declares himself for non-violence in international relations.”  
-Rev. Dr. Martin Luther King, Jr.

## 21st Annual **Western Workers Labor Heritage Festival**
