

GERMANY HEILIGENDAMM

TUESDAY, MARCH 6TH

8PM

STATION 40

3030B 16TH ST. (&MISSION)

Once a year the leaders of the 8 richest nations meet behind closed doors in secret with no publicized agenda or published minutes, to discuss the fate of the world. They've been making empty promises for decades about improving the environment, poverty in Africa, and lots more, but the fact is that the G8 is not the solution to these ills, it is the problem! We are preparing in Germany for large scale protests against the G8 meeting this June 6-8, 2007, and plan to come tell you about what is going on here.

The **Infotour** will include both a history of the G8 and the past resistance against the G8 in Germany. After this historical perspective, there will be a detailed presentation of plans for derailing the summit this June in Northern Germany. The evening will feature multiple videos and a slideshow presentation. You do not have to be planning to go to the G8 summit this summer to come to the infotour, if you can't make it to Germany come to learn about the G8 and the European culture of resistance
