Cast with current medications. Return for any problem or change in symptoms. You must keep sling on at all times. Follow up with Dr Reynolds as scheduled.

Dominican Hospital's Emergency Department exists to serve your needs for emergency medical treatment. The treatment rendered is not intended to provide complete medical care, which should be done through your own physician. These instructions are intended to provide general information and guidelines to follow at home to properly care for your particular medical problem. If you have any questions regarding these instructions, direct them to the Emergency Department nurse before you leave or contact your doctor. *X-rays are interpreted in the emergency department on a preliminary basis only. A radiologist will formally review the X-rays. If the final interpretation differs from the preliminary interpretation and requires a change in your treatment, the emergency department will contact you.
I hereby certify that I have received the above instructions and that all of my concerns/questions regarding this visit have been adequately answered.
