WHY YOU SHOULD SUPPORT THIS IMPORTANT CAMPAIGN

According to the United Nations, 1,400 Palestinians were killed and hundreds of thousands were made homeless during the attack on Gaza, and still live in tents. Many more are living in the ruins of their houses or with relatives. Reconstruction has been hampered by the Israeli blockade that stops basic building materials such as cement and steel from reaching the Gaza Strip. It is now one year later, and no progress has been made. In fact the situation is more dire than ever. When governments of the world fail to act, we the people must.
