

Houston Is Criminalizing the Sharing of Food

A new draft amendment to the city ordinances states: "It shall be unlawful for any organization or individual to sponsor or conduct a food service event on public or private property without the advance written consent of the public or private property owner..." People who have extra food and find a group of hungry people in public will be committing a crime if they share it because they don't have prior written permission. Fines against good Samaritans go up to at least \$500. Without any studies or public input, the city is in a huge rush to pass this horrible law. The people united can stop it.

• **Call the Houston City Secretary to reserve time to speak on April 3rd for the 2 - 5 pm public session: (832) 393 - 1100. Then on April 3rd come early to the Free to Give Picnic at 11am outside City Hall.**

• Attend an organizational meeting: March 31, 1 - 2 pm, at 2115 Taft, 77006
