

# Nationalize The Energy Industry Run It Under Labor & Community Control!

Labor Day March & Rally at Richmond CHEVRON Refinery

**Monday, September 3, 2012- 10:00 AM**

Assemble at: Point Richmond Washington Park,  
base of W. Cutting, Richmond

March to: CHEVRON'S GATE of Marine St. Exit on  
580 next to Richmond Refinery Refinery

**Rally 10:30 AM**

- Chevron profit was 26.9 billion last year! Yet they refuse: to provide compensation for the contamination of communities from Richmond to the Amazon and beyond.
- Responsibility for epidemics of asthma and cancer caused by plant emissions and environmental destruction caused by oil extraction is evaded to keep the profits flowing.
- Carbon monoxide, ammonia gas, benzene, hydrogen sulfide, nitrogen oxides, sulfur dioxide, volatile organic compounds and microscopic particles are regularly emitted by oil refineries!
- In 2010, Chevron emitted 4.5 million metric tons of green house gasses! Shell in Martinez emitted 4.4 million metric tons!
- The community warning system is deficient! The leak started at 4:15 PM, many homes close to the refinery were not warned until 9 PM, two hours prior to the end of the shelter in place order!

Expropriate Chevron and run it under democratic worker's control!

No compensation to the big shareholders!

Criminal Prosecution of Managers and Executives For Putting Communities and Workers In Danger  
Use the seized assets to: fund education, provide jobs in clean energy development, and restore the environmental damage done at home and abroad by Chevron and its predecessors. Unionized Workers will impose the strictest maintenance and safety procedures and protect the environment because we live in the shadow of the refinery!
