## Call for Independent Human Rights Observers

We, the undersigned, ask Amnesty International, UN NGO's, news agencies, and human rights watch groups of all kinds as well as foreign observers to visit Santa Cruz & document Human Rights abuses against the homeless population. These include the laws criminalizing outdoor and vehicular sleep for homeless people at night, bans and severe restrictions on public space use during the day, and seizure and destruction of homeless survival gear.

Local courts and legislative bodies along with police agenices ignore or actively deny these basic human rights and punish advocates seeking to expose these abuses. One man, Gary Johnson, was sentenced to 2-years in jail for sleeping on a bench with a "Sleep is not a Crime" sign as a protest outside the main courthouse. He had already served 6 months for a prior "sleepcrime".

## We call on independent agencies foreign & domestic to help us.
