

**Cops can't be allowed to kill people  
and then claim it was "suicide by cop."**

The People's Investigation into the SFPD killing of Asa Sullivan is part of an 8 year struggle for justice waged by Asa's family to refuse the state's story that blames Asa for his own death. Asa did not desire to die violently at the hands of the police. The People's Investigation, and the family, needs to buy court transcripts to go to appeal and expose this lie.

Together we can fight this injustice but we need funds to purchase the court transcripts! For information on the case, the struggle, and the transcripts see <http://igg.me/at/justice4asa>

A written report to be released in April.

The investigation is supported by Idriss Stelley Foundation, Center for Convivial Research and Autonomy, SF Mission Copwatch, Inter-Council for Mothers of Murdered Children and others.
