

# WOMEN'S RIGHTS ARE HUMAN RIGHTS!

## MARCH FOR REPRODUCTIVE JUSTICE

**JANUARY 21, 2006 – SAN FRANCISCO, CA.**

On January 21, 2006, the second annual "Walk for Life" will again be marching in the streets of San Francisco on the anniversary of Roe v. Wade. This group wants to strip women of their rights to a safe legal abortion and drive women back into the home. The two organizers, Dolores Meehan and Eva Muntean, also organized a protest against same-sex marriage in the City.

The Walk for Life last year was met by thousands of people who came out to show that San Francisco doesn't tolerate hate and bigotry and that we are for a woman's right to choose what to do with her body. We want to build on this response and need your help.

Stand up with others on Saturday, January 21. Help line the Embarcadero along the march route of the "Walk for Life" with a vibrant, multi-issue, grassroots, pro-reproductive freedom presence.

**Assemble at 11am at Pier #1, Embarcadero and Market Streets, San Francisco.**
