

And now for something REALLY spooky...

# FUNDED BY LANDLORDS!!!

*- Not only is he funded by landlords, but he is the puppet of Mayor Surely Mean, who helped repeal rent control and has actively stopped student housing projects from being built. Whoever you vote for, don't be fooled.*

If you think this flyer is inappropriate, consider that his campaign has already broken local and federal laws to get a campaign advantage, and has falsified endorsements. And all the while, the Dean Machine/Dean Regime resorts to misleading and false dirty campaigning including ugly hit pieces. Dean cynically tries to take credit for progressive projects like Solar Energy, Liveable Wage, Cleaning up Downtown, and Affordable Housing when really she has consistently worked against those things! Dean even voted against recycling way back when! If these dishonest tactics work, it will be four more years of profits over people. Be warned.
