

Battle for Justice

As we continue our battle with SBC and their insatiable greed, we appeal to the people of California, the customers and working people everywhere to stand with us in our struggle for justice.

It's not simply the SBC worker being attacked. And it's not simply SBC doing the attacking. It's Corporate Policy with political support from the highest levels. Working people must come together like never before.

The fight for justice is no longer an option, it's become a necessity. We must build a mighty movement capable of turning back this tidal wave of Corporate Greed.

Health Care & Jobs for All!

There are currently 7 million working people in California and 44 Million nationally with no Health Care at all! This must change!

Countless millions of workers can't find decent jobs while the corporate CEO's who are eliminating our jobs are cashing in.

SBC's Ed Whitacre was awarded a \$19.5 Million dollar compensation package for 2003. This 'compensation' package was close to a 100% raise from 2002! This comes as a reward for eliminating 20,000 of our jobs in 3 years!

We need to Uproot Corporate Greed and Turn this country around!
