Hotmail automatically scans all attachments using McAfee.

Name of File	screensaver.zip
Virus Scan Result	W32/Netsky.p@MM Virus Found

The file is infected with a virus, please choose from the following options.

- Sign up for one of the MSN Internet services to clean infected attachments (recommended).
Note: Not all viruses can be cured.
- Download the infected file (not recommended).
Hotmail assumes no responsibility for the potential damage an infected file can cause your computer.
