

IS THE SF BAY AREA... FOR WHITES ONLY?

A FORUM ON ETHNIC CLEANSING (A.K.A. "GENTRIFICATION")

As across the US, the African communities of the Bay Area face ethnic cleansing through an imposed drug economy and police containment, sending black people to the prisons and the grave as

white people are able to move into their neighborhoods. Let's take a stand from the white community to support economic development and an end to the war on the African community!
