TUCSON, Nov. 7 — American communists remained silent while demonstrations protesting counterrevolution and commemorating the 87th anniversary of the Bolshevik revolution erupted across Russia.

Meanwhile, the Peru People's Movement, a generated organism of the Shinning Path, celebrated the 76th Anniversary of the Communist Party of Peru and warned that Chairman Gonzalo—the greatest living Marxist on the face of the earth—is in grave jeopardy inside Callao at this very moment.

The MPP urged communist to undertake actions of all kinds and to strain all forces to affect the public presentation of Chairman Gonzalo before the international press.

A communiqué released by the organization just hours ago denounced the recent “public hearing” because free access by the press to Chairman Gonzalo was not allowed. Once again the MPP denounced the RCP's Chairman Bob Avakian calling him a “sinister chieftain” of reaction and referred to his CoRIM “a resonance box for the sewers of reaction,” saying, inter alia, that the RCP's “World to Win” news service is responsible for disseminating hoaxes against PCP in direct collaboration with the enemy.
