

Fixing Health Care in California

**A free public forum on
universal health care**

Thursday, March 16, 7 pm

California Nurses Association Offices
2000 Franklin @ 20th Street
Downtown Oakland (1 block from 19th St. BART)

-
- SB 840 (Kuehl) would provide comprehensive, quality health care to all California residents at less than the total cost of current health care spending.
 - Patients could keep their doctors, who would be fairly reimbursed, and businesses would find their health care costs reduced.
 - What can we do to build common ground between business and labor, physicians and patients?

Speakers
