Guest Speakers: **Dr. Kay Taylor**, Gynecologist,
On the Elimination of Cervical Cancer in Honduras
Kathryn Hall, Midwife, National Director, Birthing Project USA,
On the Exchange of Information of Midwifery Between Honduras and the USA
Bill Camp, Executive Secretary of the Sacramento Central Labor Council,
On the medical clinic construction project of CHIMES

Your support is vital to finish the construction of a two story medical clinic where the first medical staff in the area will live on the second floor above an emergency and non-emergency medical facility on the first floor. This clinic will be the first 24 hour/day: 7day/week public health clinic in a rural area anywhere in the nation of Honduras. The Honduran National Assembly will consider establishing a new national policy on public health clinics in rural areas based on the success of this project.

Please make tax-deductible contributions to CHIMES to support this vital program to build the very first medical clinic in a remote region in Honduras. Contributions should be sent to: CHIMES, P.O. Box 162126, Sacramento, CA 95816

The Honduras community is without electrical power so the entire medical facility will be solar powered.
