

STOP VIDEO SURVEILLANCE IN YOUR NEIGHBORHOOD!

**THE POLICE COMMISSION IS ABOUT TO DECIDE
WHETHER TO INSTALL 25 NEW SURVEILLANCE
CAMERAS AROUND SAN FRANCISCO.**

We all want safe communities, but video cameras are not the solution. The expanded video surveillance program should be rejected because:

- ♦ **Cameras DO NOT reduce crime** - study after study demonstrates that video surveillance cameras do not reduce crime or the fear of crime in the long run. Crime just moves from one corner to another.
- ♦ **Cameras are expensive.** The funds proposed for the surveillance cameras could be better spent on more effective crime-reduction measures such as increased foot patrols, community policing, or better lighting.
- ♦ **Cameras threaten our privacy and free speech rights.** Government cameras will monitor what you're doing and where you're going.

VOICE YOUR OPPOSITION IN PERSON!

**ATTEND THE S.F. POLICE COMMISSION MEETING TO TESTIFY
THAT THE COMMUNITY WANTS REAL SOLUTIONS, NOT EMPTY
POLITICAL GESTURES THAT PUT OUR CIVIL LIBERTIES AT RISK.**

**SAN FRANCISCO CITY HALL, ROOM 400
WEDNESDAY, JANUARY 17TH @ 5:30 PM**
