

Malcolm X Comes Alive in the speech

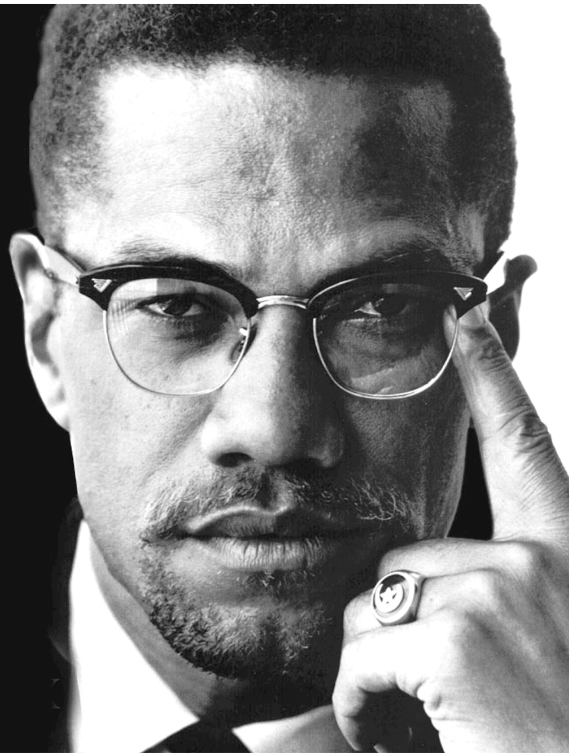

Noted Bay Area actor/playwright, Michael Lange, who has recreated Malcolm X's speeches over 800 times nationwide since 1990, will perform Malcolm's historic speech, "Message to the Grassroots" at the Socialist Action Bookstore.

This important 1963 speech conveys the urgent call for independent political action by Black people to fundamentally alter their long legacy of racial oppression.

Lange captivates audiences with his performances, bringing Malcolm's electrifying presence to life. Every aspect of the Black leader--from his glasses, to his suit, his confident inflection, and his mannerisms--is recreated in careful detail.

Lange is the vice-president of Bay Area Repertory Theater, a regional theater company located in Oakland, California.

Before the performance Lange will discuss the political and social impact of Malcolm X's ideas, past and present, and there will be a question and answer period afterward.
