**Mumia Abu-Jamal** is an award-winning journalist & innocent Pennsylvania 26 year death row inmate. Framed by a racist criminal "justice" system in a 1982 trial that has been repudiated by Amnesty International, the European Parliament, the California Labor Federation, SF Labor Council, AFSCME, SEIU, ILWU, NUPW, Alice Walker, E.L. Doctorow, Nelson Mandela, Norman Mailer, Angela Davis, the past French President Jacques Chirac and the Detroit, SF, Berkeley city governments, Mumia's case is rapidly approaching its legal conclusion. He has defeated repeated attempts at his execution by state authorities. After presenting to the courts and to millions around the world the irrefutable facts proving his innocence, his appeal for a new trial (that can only lead to his freedom) is pending. A decision is imminent. While the state presses for his murder by lethal injection we fight for his freedom. His struggle for fundamental human and democratic rights, for civil liberties, and freedom is the struggle of all those who cherish social justice.
