“The Big ONE is the one event this year where the important changes we need to make as people and as a community will be expressed, embodied, and shared. The world is changing faster than anyone thought possible, and we quickly need to find new pathways of communication and collaboration to transform our cities and neighborhoods. Please come celebrate and create the vanguard of a liveable and humane future with people you will want to know all your life.”

—Paul Hawken, author of *Blessed Unrest: How the Largest Movement in the World Came into Being and Why No One Saw It Coming*

“Gatherings such as this one are a necessary part of building a culture of resistance that will stop this culture from killing the planet.”

—Derrick Jensen, author of *The Culture of Make Believe, Endgame, A Language Older Than Words*
