WHY DOES CHASE BANK PROVIDE AN ACCOUNT FOR GOHMANN ASPHALT COMPANY?

Gohmann Asphalt Company (GAC) is responsible for the construction of the first part of the devastating NAFTA superhighway I-69. That means Chase is safeguarding funds and providing profit for the company that is evicting over 400 families and replacing their homes with asphalt. Chase bank is helping GAC destroy over 7,000 acres of beautiful, pristine land. Along with the homes of the wild animals that lived there. I-69 will be used to transport sweat shop goods and the supplies used to make them; leading to the destabilization of North, South and Central American economies. Do you want to support GAC's eviction of families, killing of wild animals and destruction of communities.?

Apparently Chase bank does.

Chase bank's involvement with GAC is appalling. This is why we are targeting Chase Bank and will not stop until they drop GAC's account. We are urging you to drop your account with Chase Bank immediately. Tell Chase Bank that we refuse to allow them to fund GAC's construction of the I-69 highway.

**PLEASE DROP YOUR ACCOUNT WITH
CHASE BANK NOW!**
