

ACTIVISTS BREAK ISRAEL'S SIEGE OF GAZA!

A talk and multimedia presentation by Paul Larudee
JUST RETURNED FROM GAZA, PALESTINE

On August 23, 2008 two small boats, the SS Free Gaza and the SS Liberty, peacefully landed at the Port of Gaza, breaking the Israeli blockade of the Gaza Strip. When they arrived in Gaza, they were greeted by the cheers and joyful tears of thousands of Palestinians who came out to the beaches to welcome them. On board the boats was a determined group of international human rights activists from 17 countries organized by the Free Gaza Movement. Paul Larudee, a co-founder of the movement, was a member of the contingent. Don't miss Dr. Larudee's report of this historic event and what the participants experienced
