

**April 19th, 2009, UCLA**

# 1FEST

## **Come Together:**

April 19th, UCLA,  
come gather with  
thousands of  
student activists  
from all over  
California to be  
heard!

## COME TO THE SINGLE LARGEST QUEER ACTIVISM EVENT FOR YOUTH OF OUR TIME.

In response to the passage of Proposition 8 and the lack of united student voices from communities across California, thousands of students from different communities and backgrounds will come together at UCLA for a day of action on Sunday, April 19th for 1FEST.

**1FEST** will provide a stage to student leaders, including you, to stand up for marriage equality as our generation's important civil rights battle. All communities will have an opportunity to be represented and can speak in their own languages, on their own terms.

**1FEST** is not just about marriage equality. Action Booths will enable all communities to bring their important issues and causes to the table, and provide thousands of young people with an opportunity to really stand up for one another. *This* is how we are going to create coalition building!

**1FEST** will be a fun, inclusive day, with music from top artists who support this cause, food from cultural student groups, and interactive art projects from every community.

## **WE NEED YOUR HELP!**

As leaders of our communities, we all need to step up to make this important day a reality.

Here's how *you* can help:

1. Get in touch with one of the organizers listed to the right. We'll help you organize transportation and get in touch with other leaders from different communities at your school.
2. Establish 1FEST as part of *your* agenda and calendar. April 19th at UCLA.
3. Build *your* coalition of leadership from your school's different communities, and get them on board. This event is about *all* groups of young people standing up *together*.

With your help, 1FEST will not just be an huge event, but a day of action, coalition and community building, and an opportunity to change the way we think about marriage equality in not just California but the entire country.
