

**Banks get billion dollar bailouts**

**CEOs get millions in pay and bonuses**

**Workers get foreclosures, layoffs, stagnant pay, and unaffordable health care**

# Had Enough?

While most people in America today are making hard choices and sacrifices, big banks and corporate executives collect government bailouts and continue their lavish pay and lifestyles that drain families' finances and sap our overall economy.

On March 19, 2009, thousands of people in cities nationwide will hold demonstrations at the offices of major banks to call on Congress to enact the real change that's needed to end an era of corporate excess and rebuild an economy that works for *everyone* — including freedom for workers to form unions and health care for all.
