**Self Determination and Community Rights Defense: Neo-Liberalism, Militarism, and Some Challenges of Solidarity**

## THREE SANTA CRUZ COUNTY EVENTS!!!!

In the face of neo-liberalism, militarism, and repression around the planet we must explore how popular power and social movements are organizing, resisting, and winning.

This multi-media presentation includes video clips, a discussion about popular power in Oaxaca, Mexico, immigrant communities around the world, and communities of color in the United States. The presentation will also explore themes of solidarity, the "NGOization" of resistance, and the comodification of sustainability. Be prepared to be challenged, engaged, and a part of a community discussion about solutions.
