Welcome! We are proud to present you iPride's agenda within StandWithUs' check list:

- ✓ Use women issues to promote Western patronage
- ✓ Racistly represent Palestinians\Arabs as murderers
- ✓ **Exploit Israel\Palestine's LGBT issues on the account of LGBT Palestinians (use white-male gay hegemony within the community to do that)**

The purpose of iPride is to make you identify with Israel as a liberal Western state. So, when you then hear of an attack done by Israel, for instance, you would see it as protecting your home, or home values. It's not even a matter of intellectual conviction. The purpose is to engage you emotionally with the urgency to protect the "liberal enlightened" Israel from the "barbaric" Arabs within and surrounding it. However, this is nothing but a racist manipulation.

Israel is built upon a racially-segregated system (apartheid), which legitimizes mass-killings, torture, restrictions on the freedom of movement, and other forms of human rights violations. The Israeli institutions are currently engaged in massive house demolitions campaigns in order to expel Palestinians from their lands. The Israeli government and its agencies practice political silencing and imprisonment of Palestinian freedom activists, Israeli conscientious objectors and simply people guilty of being Palestinian. In the Occupied Palestinian Territories, the civilian population endures state terrorism and violent persecution, theft of land, water and natural resources.

This flyer doesn't attempt to convince you. It simply encourages you to ask questions, join tours to the West Bank, speak to Palestinian & solidarity activists (also in the LGBTQI community) who can help you see what this place is FOR REAL.

Signed,

Palestinian & solidarity activists from the LGBTQI community in Palestine\Israel
