Why pay for their crisis? Why pay for more and get less? Why pay to make the CSU bosses rich? Time to fight...

This is a mandate for class war. It is time to choose a side.

They've gotten rid of Winter Term. They fired more faculty at CSUS than any other school. Staff are facing cuts to hours and threats of layoffs. Students' classes are getting cut and more and more majors are facing losses. The only way to stop the cuts and layoffs is to unite and create a situation where staff, faculty, and students have the power on campus - not the administration. Don't take this sitting down. Our enemies are organized - time to do the same.
