# The Zapatista Bases of Support Are Not Alone!

March 20th: National and International Day of Action in Support and Solidarity with the Zapatista base communities

To all the compañer@s of La Otra Campaña

To all the compañer@s of the Zetzta International

For many months the aggressions and threats against the zapatista communities in Chiapas have increased. This includes the following: The stupid declarations falsely made by the state government stating that the Good Government Councils have solicited recognition from the state congress. The aggressions against the Zapatista community in Laguna de San Pedro, which had already been displaced from its home community, in which all three levels of the bad government participated. And the aggressions by the bad government which used the paramilitary group OPPDIC and the state and municipal police to attack the communities in Bolón Ajaw. And now, the OPPDIC have also threatened to displace the compañer@sin Santo Domingo, Casa Blanca.

In this context of physical assaults by the bad government, many other people have unscrupulously declared that the aggressions have come from the Zapatista Bases of Support and the EZLN, contributing to the construction of a scenario of military intervention with grave consequences for our people. All in the service of the fat cats interested in taking the lands and natural resources in Chiapas to create money-making tourist projects which displace and remove the indigenous peoples, who are the rightful owners of that land.

Because of this, we call for a united effort, in whatever forms and ways you have, to raise our voices in support and solidarity with the Zapatista Bases of Support and the people and ejidos of Chiapas, to confront the paramilitary offensive of the bad governments and the ruling class of Mexico. Let's carry out these decentralized national and international efforts and actions on March 20th to loudly declare:

**THE ZAPATISTAS ARE NOT ALONE!!!**

Organize your action and tell us about it.

Stop the attacks on Zapatista Communities!

Free all political prisoners!
