Help Solve America's Transit Crisis and Secure a Greener Future

Rally with TWU, ATU and Rev. Jackson to save the riding public and thousands of transit workers from America's mass transit crisis and to secure a cheaper, faster and greener future.

When transit suffers, everyone suffers. Nation-wide mass transit service cuts, fare hikes and layoffs have made it more difficult and more expensive for the riding public to get to work and school, and have caused thousands of transit workers to join the unemployment lines.

Federal transit funds currently do not allow large cities to use that money for operating costs. Transit systems around the country have federal aid to buy new trains and buses, but can't use that money to pay the operators!

Join us to rally for FLEXIBILITY of those resources to be used to meet local communities' needs and priorities.

Say Yes to:

Green Jobs
Affordable Transportation
Clean & Safe Communities
Energy Efficiency

Say No to:

Service Cuts
Fare Increases
Dependency on Foreign Oil
Higher Unemployment Rates
