Eelam Tamils are treated cruelly and unfairly

The eyes have been pulled out and the chest of the victims has burnt marks. Though the place and time of these murders are not known, the source stated that the victims are surrendered LTTE cadres taken to undisclosed places for investigation following the defeat of the LTTE. Death: End of the life of innocent Tamils

200 people have been killed daily during the war
as illustrated below resulting in genocide

What is happening in Sri Lanka is an attempt at extermination of the Tamil race, a racist war. Same thing happened in the 1930's against Jews. Forensic analysis confirms execution-video authentic, says US-group, TamilNet, Sunday, 18 October 2009

Summary executions violate Common Article 3 to the Four Geneva Conventions of 1949, to which Sri Lanka is a contracting Party, prohibiting in subsection I(d) "... the carrying out of executions without previous judgment pronounced by a regularly constituted court...." Violations of the Geneva Conventions are war crimes, said Professor Francis Boyle

One of the Sinhalese methods of systemic and institutional genocide of Tamils
Sri Lankan govt is forcefully doing abortion to Tamil women in Vavunia!

IBC Tamil news, 15:00 hrs 18/03/2010 and www.pathivu.com

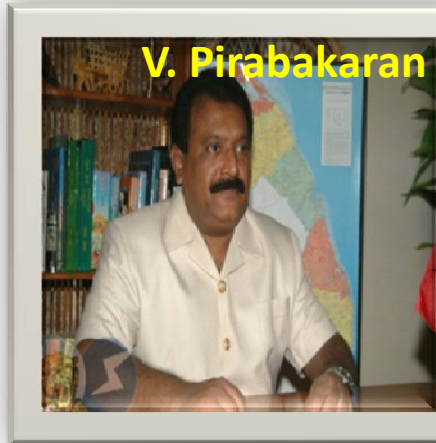

Sri Lankan govt is forcefully doing abortion to Tamil women in Chettikulam hospital in Vavunia. A group of Sinhalese Doctors and Nurses doing this and they tell women that the fetus is malformed and need to be aborted, also after child birth they do permanent sterilization without the knowledge of the concerned women. Today, I managed to talk to some of my relatives in Vanni, and they said it is true. Doctors are carried out cesaeen birth deliberately and at the same time sterilise them without their consent.

These doctors and nurses go around the villages and advise and encourage Tamil women to do sterilisation by offering incentives ie: money, food etc. According to IBC news that there are atleast 400 women affected for this type of 'genocide. At least 12 women are being sterlised each day in Chettikulam hospital.

This evil act of Sri Lankan genocide must be highlighted and stopped immediately! Another act of Genocide! TAG should include this in their case against Sri Lankan government.

Hindu temple of ritual significance destroyed in Trincomalee

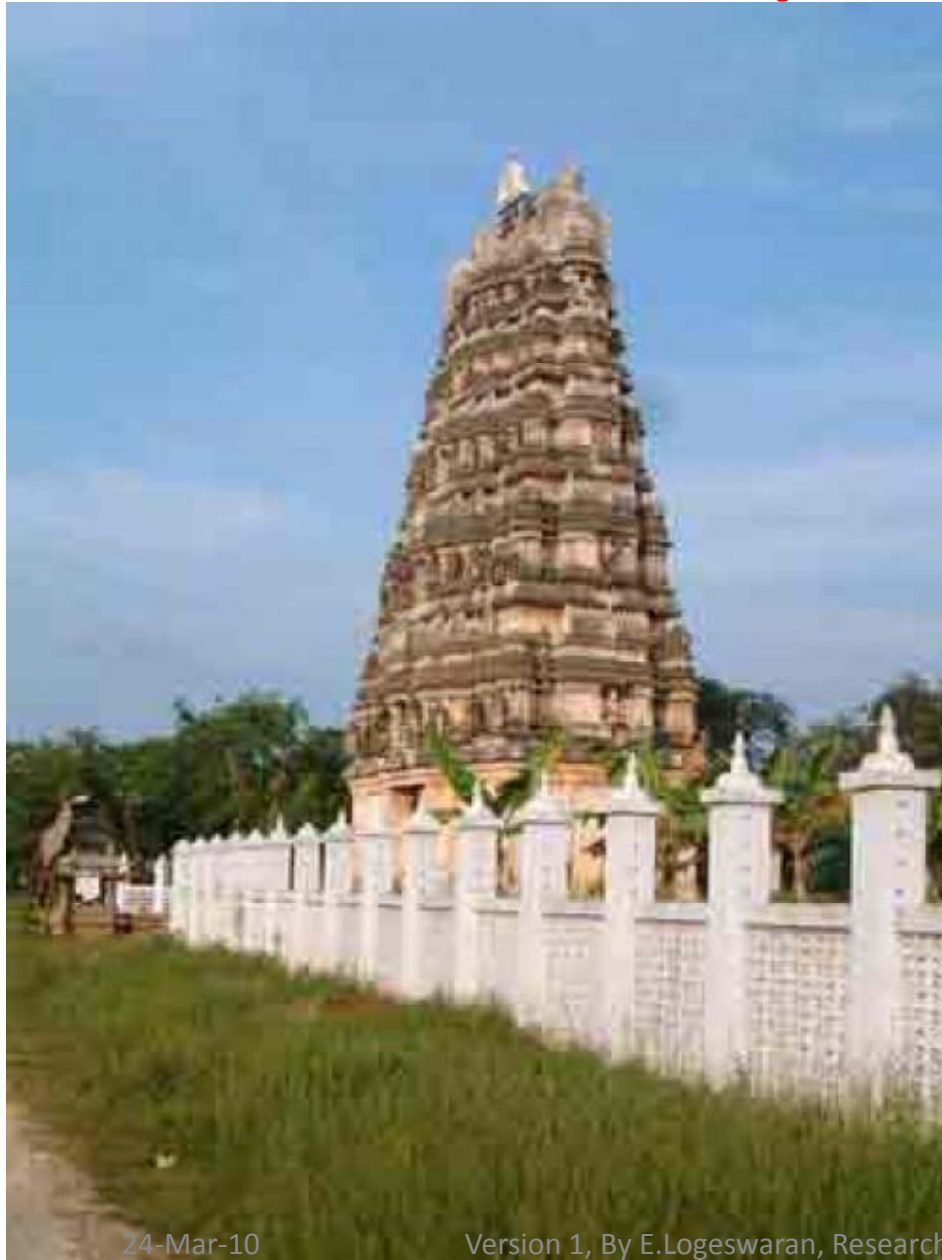

[TamilNet, Tuesday, 08 December 2009]

**Image of Murukan desecrated during the destruction a few days back.
It was already a broken image when found in the ancient ruins and was fixed together**

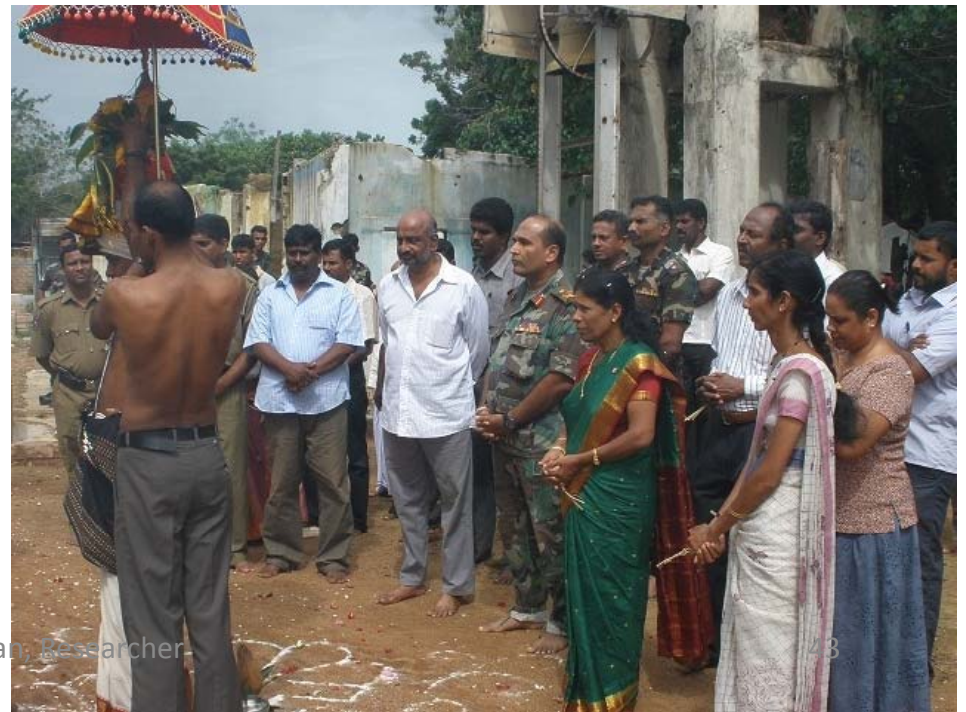

A Siva temple located at an ancient Hindu site called Akaththiyar Thaapanam, at Kangku-veali in the Moothoor division of the Trincomalee district, where Hindus gather especially to perform the Aadi Amaavaasai ritual for ancestors, was destroyed without any traces coinciding the Heroes' Day on 27 November. The location of the temple is under the control of Sri Lanka Army stationed at a nearby Sinhala village, Neelaappola. The Sinhala villagers of Neelaappola protected the Tamil villagers of Kangku-veali from displacement in 2006. The Tamil villagers who were shocked and wept to see the temple razed to the ground now, suspect 'outsiders' and are scared whether this is a prelude to wipe out their traditional village as well.
