

JERRY BROWN make it right, DROP "S-COMM"!

October 5 Rally in Front of Attorney General Jerry Brown's Office against the "Secure" Communities program: **A Dangerous Fingerprinting Program, which Terrorizes Immigrant Communities, which so far Jerry Brown supports!**

Don't Let Arizona Come Home to SF!

What is S-Comm?

The misnamed "Secure" Communities (S-Comm) is a federal program that automatically shares with ICE (Immigration and Customs Enforcement) all fingerprints taken by local police departments when anyone is arrested--no matter how minimal the charge and even when the individual is eventually found to be innocent.

S-Comm brings Arizona's SB1070 to every state in the U.S., putting people at risk for being deported for missing a stop sign or selling ice cream! S-Comm terrorizes the most vulnerable communities, including immigrant families, domestic violence victims, and lesbian, gay, bisexual, and transgender people. ICE's own data shows that

79% of people deported through this program are non-criminals or were picked-up for lower level offenses such as traffic violations.

How can Brown make it right?

Despite strong requests from the SF Sheriff and Board of Supervisors to opt-out of this voluntary program, Jerry Brown has forced San Francisco to implement S-Comm. Tell Jerry Brown to let SF opt-out of S-Comm and protect our city's most vulnerable residents!
