Title: EMERGENCY MEETING for Response to Mehserle Verdict

START DATE: Tuesday June 29

TIME: 7:00 PM - 9:00 PM

Location Details:

Niebyl Proctor Library, 6501 Telegraph Ave, Oakland

Event Type: Meeting

Contact Name: Uhuru Movement

Email Address: [oakland \[at\] inpdum.org](mailto:oakland[at]inpdum.org)

Phone Number: 510-394-1780

Address

Any day now, the verdict in the Mehserle murder trial will be announced with the world watching.

We must organize a response to the verdict - whatever happens - that sees the murder of Oscar Grant within the context of the growing police violence against the African community that requires our participation in solidarity with growing African liberation movement as allies or in building self-determination for African people through organization.

The International People's Democratic Uhuru Movement and the Uhuru Solidarity Movement are calling on individuals and organizations to come together to organize a disciplined and militant response to the verdict to the trial for the murder of Oscar Grant. All indicators point to an acquittal or a lesser charge than first degree murder. The police are and have always been the first line of defense for the white ruling class against the oppressed African community. The police departments of the United States were originally the slave owners and slave catchers whose role was to brutalize and terrorize the African and Mexican communities. Their role is no different today from Detroit to Oakland!

The Oakland Police Department is organizing their response. All justice and freedom-loving people must come together to organize

our response. We must win the minds of the people of Oakland and beyond to stand up for justice.

We must act, not as individuals, but as people united against the state violence and repression of the African community. We must build a strong movement in solidarity with self-determination and for victory for African people here and abroad.

With your commitment, we can defeat the Oakland gang injunction and hasten the crisis of a system that provides nothing but murder and oppression for peoples on the planet and participate in a world where African and oppressed have control over their own lives, and we are no longer living at the expense of others.

Sent: Jul 4, 2010 8:50 PM

An L.A. jury is deliberating in the trial of ex-cop Johannes Mehserle for murdering Oscar Grant, a young Black father, in Oakland last year (see multiple videotapes on you-tube). The trial was moved here on a defense motion to get it out of Alameda County, where the community was widely aware of and fired up about the case. They are betting that in L.A., they can get away with letting the cop off. The judge has already removed first degree murder as a possible verdict before sending the case to the jury, which is now considering second degree murder or voluntary or involuntary manslaughter as possible verdicts. In the face of all the evidence, they could also acquit (or cause a mistrial by being unable to reach a verdict).

I talked today with the Black Riders Liberation Party (which has been organizing about the case independently as well as through the LA Coalition for Justice for Oscar Grant) and they are proposing to do a strong mobilization to the courthouse on Tuesday morning, before any verdict. That would have the advantage of serving notice on the state and the criminal-injustice system, and letting the jury know, that there would be a heavy political price to pay for an acquittal or mistrial (in case of a hung jury).

The media will be out in force in the expectation of a verdict, and verdict or not, we should give them something bold and dramatic to cover on the news. The police have made it clear that they have a "secret plan" to quash any resistance at the courthouse once the verdict comes in, so we can preempt that by acting first. (This would be in addition to, not instead of, existing plans that we have been flyering about to mobilize to court when a verdict is announced, and to meet up in Leimert Park at 5:00 that evening for a community rally/march).

We still have a day or so to call people up to come out Tuesday, July 6 starting at 8:30 AM at the Criminal Courts Building on Temple between Broadway and Spring, and make a final impression on the city and the jury that L.A. is just as fired up about this case as Oakland and the Bay Area. Hopefully thereby we can impact the results of the trial and prevent a total miscarriage and denial of justice. The state is already complicit in the murder of Oscar Grant; the other BART cops involved in the incident should have been indicted along with mehserle, and the jury should have been allowed to consider a Murder 1 conviction. I hope people will embrace the Black Riders' proposal for a Tuesday morning rally at the courthouse. See you there. Please forward widely!
