*Anarchist Café is a semi-regular event held at 10th & J St. in downtown Modesto. In a city where public space is quickly becoming scarce, where real estate developers, politicians, and the police are constantly on the attack against those who live in the Downtown (both renters and homeless), in an age of austerity and police repression, where life is simply getting harder to live, A-Cafés serve as a place for those dissatisfied with the misery of every-day life to come together, meet each other, and have a good time. We seek to take back public space, our space, for at least a night.*
