

A FREE workshop for San Francisco educators, parents, and after school providers.

WATERSHED TEACHING TOOLS

Participants will learn:

- Skills and resources to bring high-quality environmental education into your classroom
- Games, art projects and scientific investigation to teach about watershed plants and animals
- Student activities for preventing pollution at home and at school

Go home with:

- An e-curriculum with background information, resources, and activities aligned to CA State Content Standards.
- Free samples of Our Water Our World less-toxic gardening products.*

**SATURDAY, NOV. 5TH ,
9AM-4PM**
