

Black Friday Protest at Emeryville Mall: Stop the Desecration of Indigenous Land

Did you know that the Bay Street Mall is built upon a Sacred Ohlone shellmound burial ground? It is the oldest and largest burial ground in the bay area – older than the pyramids in Egypt. In 2000, it was desecrated to make way for the mall.

Join in the annual action to educate the public about this sacred site. Bring snacks and signs as we ask holiday shoppers to *boycott this mall* to respect the original (and still present!) inhabitants of the Bay Area. Children and families are welcome.
