

The Economics of Happiness

A film showing and discussion

Thursday, February 2, 2012
7pm - 9pm

Join us for a film and discussion about **The Economics of Happiness**. The film describes a world moving simultaneously in two opposing directions. On the one hand, an unholy alliance of governments and big business continues to promote globalization and the consolidation of corporate power. At the same time, people all over the world are resisting those policies, demanding a re-regulation of trade and finance—and, far from the old institutions of power, they're starting to forge a very different future.

This film features a chorus of voices from six continents, including *Vandana Shiva, Bill McKibben, David Korten, Samdhong Rinpoche, Helena Norberg-Hodge, Michael Shuman, Zac Goldsmith and Keibo Oiwa*. **The Economics of Happiness** challenges us to restore our faith in humanity, and challenges us to believe that it is possible to build a better world.
