Drone Warfare

Report Back from Peace Delegation to Pakistan

The People's Story of Drone Warfare in Pakistan:

Members of the Bay Area Code Pink and 32 citizen diplomats from across the U.S. recently participated in a peace mission to Pakistan. This report back of their visit will include first-hand accounts of life under drone surveillance in Waziristan from families residing there and how everyday life has been affected by the use of drones in their communities.

Code Pink members Toby Blome and Dr. Dianne Budd, who recently returned from Pakistan, will present a photographic documentation of this trip, and speak about their encounters with the Pakistani people. The presentation will be followed by Q&A and discussion.
