

*Bay Area Seed Interchange Library's*  
**14th Annual  
Seed Swap**

---

**Friday, February 15, 2013  
7pm - 9pm**

Come join the East Bay urban agriculture community for another boisterously joyous annual seed swap. We will transform the Ecology Center into an interactive seed exchange where you can connect with and swap an abundance of local seeds and talk with fellow seed savers.

There will be a potluck supper, hoedown music, home-grown garden seeds, and the company of fantastic local gardeners! Come learn about seed saving classes, the seed library, and converse with other local gardeners. Bring open-pollinated seeds to exchange or a potluck dish and get in free, or make a donation of \$10 at the door.

Bay Area Seed Interchange Library (B.A.S.I.L) is a project of the Ecology Center.
