**7:00 PM**

**At: ILWU Local 34**

801 2nd St. near Embarcadero & 2nd St.  
next to AT&T Stadium, San Francisco  
(Donations Accepted)

Free parking available in union parking lot

To commemorate international May Day and in conjunction with labor film screenings around the world, LaborFest will be screening “*Dreamwork China*” (56 min.- 2011) about the lives of tech workers in China including workers producing Apple products. This premier screening in San Francisco will be an opportunity for the first time to see the lives of the workers who produce i-Phones at Foxconn in Shenzhen, China.

We will also screen *All On the Same Ocean* - Video of the Hong Kong Dockworker's Strike and there will be a report on the strike and international solidarity.

Following the films there will be a discussion about the launch of the international labor media channel and how workers can use new media to tell their stories.

This is sponsored by LaborFest, which holds an annual labor cultural film arts festival every July to commemorate the San Francisco general strike in 1934 to defend the hiring hall and the right to union.
