

Citizen's Task Farce Promoting Public Prejudice is a macabre joke.

What Poor Person is Safe from the Public Safety Task Force's Homeless-Hostile Agenda?

- **Marijuana prohibition (increasing enforcement, banning dispensaries, & throwing \$ at police for the Class War on Drugs).**
 - **Jailing homeless people for sleeping, sitting on the sidewalk, or smoking in a park (“illegal behavior”).**
- **Treating homeless survival behavior as criminal conduct (“against the law”) using the phony “Public Safety” label.**
- **Stepping up the war on the poor by urging abolition or limitation of already inadequate homeless services.**
- **Setting back public health concerns decades by destroying needle exchange on the basis of phony “needle hysteria”.**
- **Using a hand-picked stacked committee with no homeless people, homeless advocates, or progressive activists.**
- **Ignoring real crime like rape, assault, white-collar scams, & fraud by banksters, real estate ripoffs, & corrupt officials.**
- **Using gated community bigotry and Downtown Association paranoia to brand homeless “anti-social” and “nuisances”.**
- **More jails, more arrests, more police, more vigilanteism to make Santa Cruz more hostile to poor and homeless people.**
- **Make homeless vehicle dwellers illegal for the comfort of privileged housed people with a gated community mentality.**
