# Urbanized:

A DOCUMENTARY ON THE FUTURE OF CITIES

**Thursday,  
Dec 19th, 2013  
7pm – 9pm**

Kick back with the Ecology Center, the Sierra Club, the Berkeley Climate Action Coalition, and Transition Berkeley for this imagination-stretching documentary. There will be snacks and discussion following the film.

## About the Film:

Over half the world's population now lives in an urban area, and 75% will call a city home by 2050. Who is allowed to shape our cities, and how do they do it? Unlike many other fields of design, cities aren't created by any one specialist or expert. There are many contributors to urban change, including ordinary citizens who can have a great impact improving the cities in which they live. By exploring a diverse range of urban design projects around the world, **Urbanized** frames a global discussion on the future of cities.
