

# Human Rights for Homeless People !

For those living outside in Santa Cruz, Human Rights abuses happen daily. These include the laws criminalizing outdoor and vehicular sleep for homeless people at night, bans and severe restrictions on public space use during the day, and seizure and destruction of homeless survival gear. Police and businesses have a double standard when it comes to homeless folks. Social service agencies provide little protection.

We, the undersigned, ask our local American Civil Liberties Union [ACLU] to publicly denounce these abuses. We urge them to break their long silence.
