

HOMELESS ENCAMPMENT PROTECTION

Volunteer

to Protect Current Homeless Housing in Santa Cruz

1000-2000 people sleep outside in the City of Santa Cruz each night, thousands more in the County. Housing for most of these folks now and in the foreseeable future is a sleeping bag and a tent. They face the very real risk of harassment, citations, arrests, and violence nightly from bigots and bureaucrats. We must protect the rights, safety, and dignity of this community. Less than 10% of these folks have any access to church or government “shelter”. They need garbage pick-up's, toilet access, and community support. Are we Santa Cruz or Santa Cruel?
