

To Hell With War!

Major General Smedley D. Butler, USMC

I spent thirty-three years and four months in active military service . . . And during that time I spent most of my time being a high-class muscle man for Big Business, for Wall Street and for the bankers. In short I was a racketeer, a gangster for capitalism.

I suspected I was just a part of a racket at the time. Now I am sure of it. Like all members of the military profession I never had an original thought until I left the service. My mental faculties remained in suspended animation while I obeyed the orders of higher-ups. This is typical with everyone in the military service.

Thus I helped make Mexico and especially Tampico safe for American oil interests in 1914. I helped make Haiti and Cuba a decent place for the National City Bank boys to collect revenues in. I helped in the raping of half a dozen Central American republics for the benefit of Wall Street. The record of racketeering is long. I helped purify Nicaragua for the international banking house of Brown Brothers in 1902-12. I brought light to the Dominican Republic for the American sugar interests in 1916. In China in 1927 I helped see to it that the Standard Oil went its way unmolested.

During those years, I had as the boys in the back room would say, a swell racket. I was rewarded with honors, medals and promotion. Looking back on it, I feel I might have given Al Capone a few hints. The best *he* could do was to operate his racket in three city districts. I operated on three continents.

Major General Smedly D. Butler, USMC

Every gun that is made, every warship launched, every rocket fired signifies, in the final sense, a theft from those who hunger and are not fed, those who are cold and are not clothed. This world in arms is not spending money alone; it is spending the sweat of its laborers, the genius of its scientists, the hopes of its children.

General of the Army Dwight Eisenhower

I believe that if we had and would keep our dirty, bloody, dollar-crooked fingers out of the business of these nations so full of depressed, exploited people, they will arrive at a solution of their own. That they design and want. That they fight and work for. And if unfortunately their revolution must be of the violent type because the "haves" refused to share with the "have-nots" by any peaceful method, at least what they get will be their own, and not the American style, which they don't want and above all don't want crammed down their throats by Americans.

General David M. Shoup, Commandant, USMC
