“I just want flat out justice . . . If the facts are that the cop did what I think he did, well, we don't need cops like that.” — Rick Perez, Pedie's father

After eight months of secrecy and hypocrisy, the family of Richard “Pedie” Perez III is still seeking truth and justice in the killing of their son by Richmond Police Officer Wallace Jensen in the early morning hours of September 14, 2014. The police claim Pedie attacked Officer Jensen and tried to take his gun. Eyewitnesses tell a different story. The Contra Costa District Attorney ruled it “Justifiable Homicide,” making false and misleading statements and ignoring evidence and witnesses. He has discredited his office, just as Officer Jensen has discredited the Richmond Police Department

We deserve better from our police and elected officials.
