- With U.S. support, the apartheid Israeli government is taking the land and lives of indigenous Palestinians – just like the U.S. government did and continues to do against native Americans and people of color here.
- With U.S. support, Israel has built a wall that imprisons Palestinians. With your tax dollars, Trump wants to build a U.S./Mexico wall.
- Every day, the Israeli military & police target Palestinian activists, including children, harassing, jailing, torturing, and killing them. And Israel is training U.S. police with these same tactics.

**There is NOTHING to celebrate about
the brutality of the Israeli or U.S. governments.**
