

What if the internet wasn't about connecting to Comcast, AT&T, Google, or Facebook?

What if it meant connecting directly with your friends, neighbors, and community?

**People's Open Network** enables anyone to share their internet connection or extend signal from neighboring nodes.

# Build Your Own Internet

Come over to Omni Commons, learn how the internet works, and how you can be part of the People's Open Network.

**Saturday January 27 2018 2-5pm**

**Omni Commons**, 4799 Shattuck Ave, Oakland, CA

Free  
Admission
