

# **Communities Against Racism & Fascism**

**CARF** is seeking to build a direct-action united front with a broad-based coalition of groups and individuals. We are united in opposition to violent ultra-right movements and aim to build large and disciplined counter demonstrations against neo-Nazis and fascist forces when and where they gather. We aim to protest, outshout, out-organize, and outnumber them.

We believe in a working-class program and leadership to protect and enhance civil rights and liberties in our communities. All oppressed and working people have a stake in the fight to stamp out fascist ideologies & movements.

We organize together with workers, unionists, people of color, immigrants, LGBTQ+, women, feminists, Jews, Muslims, socialists, radicals, people with disabilities, indigenous people, civil rights communities and local organizations. We are committed to actively building solidarity, unity in action, a democratic multi-issue movement, and fearless responses in order to advance the struggle against white supremacist and fascist political movements.

**Be part of building the coalition & Rapid Response Network!  
Next General Meeting**
