Monday March 18 3 PM Camp Pathway near the Bridge: Ross Council meets with Drew Glover.

- On March 12th the entire City Council dumped its February 26th promise to postpone any closure of the Ross Camp until there was adequate shelter or safe sleeping space for the entire population there.
- The Council's "solution": Set up shelter for 100 people at the boneyard & another spot.
- The "solution" won't shelter 100-200 Ross residents. It ignores the rest of the homeless population.
- The overcrowded Ross camp needs overflow shelter and services now not an April 17th deadline.
- Ross camp residents are preparing an Injunction advised by attorney Anthony Prince of the California Homeless Union to force the City to respect the Martin v. Boise decision. **Support the lawsuit!**
